Global War 1936

v4.3

National Reference Sheet

CCP

Overview

Chinese Home Country	All land zones Originally with a Chinese warlord, KMT, CCP, Manchukuo or Mongolian roundel as well as Formosa and Hong Kong.
Capital	Does not have a Capital while a Minor Power. May collect income without a Capital while a Minor Power.
Starting Income	2 IPP.
Strategic Navel Moves	1 (once evolved to Major Power)
Chinese Civil War	At war with KMT in an ongoing civil war (refer to 14.3).
Alignments	May Align Chinese warlords (refer to 4.9 and 15.2).
Pact available	Chinese Truce (refer to 6.6).
Evolution to a Major Power	Until evolved, CCP does not Align with anyone. CCP can only move/attack within Chinese Home Country and in sea zones adjacent to Chinese Home Country. Evolution to Major Power: CCP evolves to a Major Power once its land zone IPP values add up to 13+ IPP. After evolving, it selects a Capital and may place 1 factory there at no cost: • 1 Major Factory if chosen capital is a city land zone. • 1 Medium Factory if chosen capital is any other land zone. Subsequently, it can build facilities, send Lend-lease, develop technology and move/attack outside Chinese Home Country. As a Major Power, CCP neither gets recruitments nor influence rolls. In addition, it no longer has the “Decentralized Production” special ability. Note that if CCP evolves to a Major Power in its Player Turn, it can still use its “Decentralized Production” special ability in that turn.
Surrender	CCP never surrenders.

Special Abilities

	Special Ability
Decentralized Production	CCP may place infantry-class units and Cavalry in any Chinese Home Country land zone it has possessed since the beginning of the Player Turn. No factory is required.
Recruitment	During the Place Units Phase, CCP may make one recruitment roll. If the roll is less than or equal to the total number of land zones CCP Possesses, CCP may place one Infantry or two Militia in any of those land zones (according to the rules for “Decentralized Production”, above).
Spreading Influence	During the Place Units Phase, CCP may make one influence roll on a Chinese warlord adjacent to an Influencing Zone. If the roll is less than or equal to the total number of adjacent land zones CCP Possesses, all remaining land zones and military units of that warlord Align with CCP. Prior to rolling, CCP may spend IPP up to the amount of its original influence roll to increase the chance of success. Each IPP spent subtracts 1 from the influence roll. Regardless of how much is spent, the Influence attempt backfires on a “12” causing the warlord to Align with KMT instead.
Comintern Brothers	If there is an undamaged railroad connecting a CCP-possessed land zone to a Soviet-possessed land zone in the Production Phase, it may purchase Artillery and Anti-aircraft Artillery units. These must be placed in the land zone with this railroad.
