Strategic Objectives

Objective	Point(s)	Bonus
Spanish Civil War. The Nationalists win the Spanish Civil War. Spain is subsequently neutral or Aligned with Germany. (If Madrid is ever captured by an Enemy Alliance, Germany loses the objective).	1	1 Blue Division (regular Infantry) to be placed in Madrid or in the German Capital (each Player Turn).
Lebensraum. Possess 3 Soviet city land zones.	2*	1 Minor Factory in two of the three possessed Soviet cities (once per game). * One of the points can not be taken away.
Festung Europa. At least one German land unit is present in all seven coastal land zones from Denmark to Aquitaine at the end of the German Non-combat Movement Phase.	1	1 Fortification or 1 Coastal Artillery to be placed in one of these land zones as pieces of the “Atlantic Wall” (each Player Turn).

Lend-lease

Germany	Spanish Nationalists Vichy France Any other nation	Yes (+1 Supply Path range) Yes Yes, if recipient is at war with Major Power

Special Abilities

	Special Abilities
Blitzkrieg	Once per game, and prior to July, 1941, all German land and air units may make an additional sequence of combat movement, combat (including blitz) and non-combat movement. The second sequence of attacks takes place immediately after the end of the first non-combat movement. All participating land and air units have their movement allowance reset after the first sequence. In the second sequence, land units may not combat move or non-combat move through just captured land zones. Units with blitz may use this ability both sequences if possible. Attacking vehicle-class units do not suffer -2 attack penalty when attacking cities. On the turn Blitzkrieg is used, Strategic Rail Movement only occurs during the second sequence of non-combat movement. *Example: Germany attacks Belgium and blitzes into Picardy in the first sequence. In the second sequence, the German player wants to attack Paris. Units in Belgium with a movement of “2” are not able to participate.*

	Special Abilities
Condor Legion	Germany has +1 Supply Path range when delivering Lend-lease to the Spanish Nationalists as well as when transferring the Condor Legion to and from Spain. Once per game, while the Spanish Civil War is ongoing, the Condor Legion can be created in the Production Phase by moving a German Fighter in a Supply Path already on the board to the place units box. Cost to implement: 5 IPP. During the Place Units Phase, the Condor Legion is transferred to a Spanish Nationalist-possessed land zone via a Supply Path. This transfer does not require strategic rail or Strategic Naval Movement. Subject to interdiction (refer to 12.5). The Spanish Republicans get an extra recruitment roll on the next Spanish Republican Player Turn the Condor Legion is created. While in Spain, the Condor Legion is a Spanish Nationalist unit. The Condor Legion can be recalled back to German Home Country at no cost during the Non-combat Movement Phase if the Spanish Nationalists win the Spanish Civil War. Requires a Supply Path. Subject to interdiction (refer to 12.5).
Operation Barbarossa	Once per game, if Germany declares war on USSR, in the subsequent German Combat Phase, all German land and air units get +1 attack against Soviet units and all Soviet units get -1 defense on all rounds of combat and subsequent blitzes. USSR may not attack more than one German-possessed land zone on its next Player Turn following this combat phase. (Note: Germany can not use this special ability if USSR declares war first).
Deutsches Afrika Korps (DAK)	Prerequisite: Italy is at war with an Allies' Major Power. Once per game, DAK can be created in the Production Phase by moving German units in a Supply Path and already on the board to the place units box. DAK may consist of up to 3 Infantry, up to 1 Motorized Infantry, up to 2 artillery-class units and up to 2 Light Armor (or 1 Light and 1 Medium). Cost to implement: 1 IPP per unit, maximum of 5 IPP regardless of the number of DAK units created. At the end of the Place Units Phase, DAK units are transferred to a Friendly Originally Italian-possessed North African land zone via a Supply Path. This transfer does not require strategic rail or Strategic Naval Movement. Normal Supply Path rules apply (refer to 1.11). Note each DAK unit is a separate delivery. DAK units are unaffected by desert terrain rules. If a DAK unit is eliminated, the German player may in subsequent Production Phases send a replacement of the same type. Cost per unit: 1 IPP. Same transfer rules apply. DAK units can be recalled back to German Home Country at no cost during the Non-combat Movement Phase. Requires a Supply Path. Subject to interdiction (refer to 12.5).
