Special Abilities

	Special Abilities
Inefficiency	Aligned/captured land zones do not increase Soviet income until USSR reaches its Full Production income via income increase rolls or from an Enemy declaring war on USSR. Note that income from Annexed land zones can be collected immediately.
Factory Movement	Once at war with a Major Power, USSR may use 1 Strategic Rail Move to move a Minor or Medium Factory and 2 Strategic Rail Moves to move a Major Factory within Soviet Home Country. The factory cannot produce any units or technology, or be upgraded or repaired the Player Turn it moves. It moves in whatever state of damage it has suffered. If USSR has achieved its "Access to the Mediterranean" strategic objective, it can move one Minor Factory each Player Turn without the Home Country restriction and ignoring Railroad gauge changes.
Northern Sea Route	USSR can move one naval unit per Player Turn between sea zones A9 and P1 (in either direction). The unit must start its move in either sea zone A9 or P1, and it expends its full movement (including any bonuses) to make the move. USSR may give other nations permission to use this route.
For the Motherland!	In the first Production Phase that USSR is at war with a Major Power all units cost -1 IPP. USSR may use its Militia for attacking in its Home Country paired 1:1 with other land units.
Scorched Earth	USSR can destroy its own facilities during the Combat Phase of its Turn. Land zone must have been in the Soviet player's Possession since the beginning of the Player Turn. No land unit is required. Destroyed facilities cannot be repaired.
International Red Aid	<u>CCP:</u> During the Place Units Phase, one Soviet air transport in a Supply Path which has not moved or been placed this turn may Lend-lease deliver a Militia upgrade to CCP. The Air Transport uses its range to travel to the recipient-possessed land zone, may fly over Warlord-possessed land zones, and must land in a Soviet-possessed land zone after delivery. <u>Spanish Republicans:</u> If Turkey is a Non-controlled neutral nation, USSR may trace a Supply Path to deliver Lend-lease to the Spanish Republicans through the Turkish Straits even if USSR is at war with a Major Power.
